

This book makes Taiwan Great!

# The Motherland of Civilization is TAIWAN

Hsien-Jung Ho

Atlantis, Mu-Land and homeland of Austronesian are all  
**Taiwan**

# Preface

Culture is the customary beliefs, social forms, and material traits of a racial, religious, or social group, and the characteristic features of everyday existence (such as diversions or a way of life) shared by people in a place or time. Civilization is the culture characteristic of a particular time or place.

The earliest civilization of humankind, believed by archaeologists, was “Sumer Culture”, located in the Mesopotamia, between the Tigris and Euphrates river basins in the Middle East, where a group of indigenous mixed peoples lived about 11,000 years ago. Prior to this humankind civilization, both of the two records of different sources suddenly disappeared about 12,000 years ago. One was the Atlantis Imperial Civilization in the Atlantic Ocean, depicted in the Greek philosopher Platos book “*The Dialogue*” in 360 B.C. The other was the civilized Empire of the Sun of “Mu-Land” in the Pacific Ocean, depicted in the book “The Lost continent of Mu” by Churchward, a British officer, in 1926. People at the age of Plato believed that Atlantis was in the vast Atlantic Ocean; nevertheless, they did not know the existence of the Americas and the Pacific Ocean. Therefore, the Americas and the Pacific Ocean were undoubtedly considered as a part of the Atlantic Ocean, and so was the Atlantis in the Pacific Ocean.

To study the earliest civilizations of humankind, the author cites data based on the English Churchwards “The Lost Continent of Mu” (English version) and the Greek philosopher Platos “The Dialogue” (English version), to explore the content of both. After a detailed study, it is found that although Mu-Land and Atlantis had different sources, there are as many as fifteen commonalities in their narratives. These 15 items are necessary conditions for historical conformity, including time, place, person, culture, events, etc.... There two ancient continents disappeared can be considered just a single continent, whose names vary from different sources. Schliemann, a famous German archaeologist in the nineteenth century, speculated that Mu-Land and Atlantis were the same continent. Since Atlantis Empire worships the Sun and the people of its colonies worship the Sun, The Atlantis Empire can also be called “The Empire of the Sun”. The two disappeared Empires of Mu-Land and Atlantis may be commonly known as “The Empire of the Sun”.

Mu-Land and Atlantis have five things in common, including earthquake destruction, major flooding, sinking within one day overnight, sinking in the great ocean, disappearing 12,000 years ago. It is a fact recognized by geologists that the events of 12,000 years ago coincided with the end of the Fourth Ice Age on Earth, when the earths crust was unbalanced and cracked, causing volcanic eruptions. Volcanic eruptions usually accompany a strong earthquake, followed by a tsunami that destroys the civilization of the time, so the search for the vanishing site of Empire of the Sun must start with the volcanic eruption that caused the tsunami.

In April 2001, the international ocean drilling ship “JOIDES Resolution” at the Ocean Drilling Program (ODP) Site 1202 operated geological drilling on the south slope of southern Okinawa Trough, took out 410 meters of core from the sea floor and did three different methods of age dating. It turns out that there was a large amount of sediment sinking to the sea floor about 12,000 years ago, though the experts do not know the source. However, the fact that the sediment is composed of components similar to those of Taiwans mountaintops, and contains volcanic ash particles, indicates that there has been a volcanic eruption nearby.

In 2004, when the National Expressway Engineering Bureau excavated at Snow Mountain Tunnel of Freeway No. 5, the sampling test of artesian water was detected and was found in the northern section of Snow Mountain hiding “the more than 8000 years ancient water” was detected, they found that “natural underground reservoirs” undoubtedly do exist. Then many volcanoes in the northeast corner of Taiwan and the nearby waters had the records of volcano eruption from the past three million years to six thousand years ago. Based on the information, we learn that the northern section of the Snow Mountains has “Stratovolcano Island”, which is inclined to trigger a “mega-tsunami” in the event of a volcanic eruption.

Based on both of these pieces of information, the author wrote an academic paper on the coastal engineering in the civil engineering field: “Mega-tsunami in Northeastern Taiwan at Least 12,000 Years Ago”; appendix 2), published at the Third International Conference on Asia and Pacific Coast 2005 in Jeju of South Korea, in early September 2005. Experts and scholars from all over the world affirmed it. Because this article reveals the dawn of the ancient history of Taiwan, which can be linked to the time and space of the ancient civilization sites of Taiwan and can be connected with the earliest time and space of the history of world civilization, the study should become the stepping-stone to the ancient history of Taiwan and the world.

According to this paper, a volcanic eruption occurred in the northern section of the Snow Mountains about 12,000 years ago, and accompanied a landslide. A huge volume of earth and gravel, rolling down the Pacific Ocean and drifting to ODP Site 1202, caused a mega-tsunami that destroyed Taiwan and the islands of the Pacific Ocean as well as the surrounding coastal civilization. This event in condition and time coincides perfectly with the destruction of the Empire of the Sun.

The “mega-tsunami event” in the northeast corner of Taiwan was almost consistent with the plot of Churchwards “The Lost Continent of Mu”, including volcanic eruptions, major earthquakes and land that sank in the Pacific Ocean 12,000 years ago. In this book, “the leaping deer” stands for “the first human” on earth, which is more similar to the Formosan sika deer, and many fossils of ancient elephants were unearthed in Taiwan that proved Mu-Land should be Taiwan. Taiwan's main aborigines, all nine ethnic groups of Plain Peoples and some Mountain Peoples, still retain the Matriarchal society of Mu-Land, so that Taiwan Island should be the Mu-Land, which also called Lemuria.

Learning from Solon, a Greek wise man, Platos description of Atlantis has given sixteen clues in the search for the Atlantis Site. Although more than 1,700 reports of the Atlantis Site have been found around the world, there was never a place to conform to Platos description and Solons sixteen clues, except Taiwan's environment. In addition, the conditions of Suao Bay area were also consistent with those of the capital of Atlantis, so that Atlantis is considered the Taiwan Island, too.

The first lost civilized continent of Empire of the Sun did not all sink into the sea, but only disappeared partially. A volcanic eruption occurred in the northern section of the Snow Mountains in the northeast corner of Taiwan, causing a collapse of the huge volume of earth and gravel, and rolling down the Pacific Ocean and spreading into Lanyang Plain. The east of Taiwan was supposed to be a straight coastline, with the collapse falling into the sea, shrinking into a beautiful inner concave arc of Ilan coastline. The capital was in the area and sank to the bottom of the sea, which was later mistaken for the legend that Mu-Land or Atlantis had all sunk into the sea and disappeared.

Before Columbus discovered the New World of America, there were still two islands remaining, Antilia and Satanazee, on many nautical charts, which were believed to be Taiwan and Japan. The characteristics of Antilia's size, shape, major estuaries, five rivers and coastlines measured in particular on the nautical chart are all similar to those of Taiwan Island measured. In 1995, South University of Florida Professor Robert Fusons "*Legendary Islands of the Ocean Sea*" explained that Antilia was the first Pacific island on a map of the West, which was definitely Taiwan.

There are many traces of Empire of the Sun in Taiwan, including many submarine remains of ancient civilization around Taiwan, more than a hundred ancient artificial caves, many remains of megalithic civilization, and many ancient achievements. These traces can be taken as the substantial evidences of "The Empire of the Sun" in Taiwan; in other words, "The Civilized Motherland of the Humankind is Taiwan".

After the big flood "mega-tsunami", none of Taiwan's personage ancestors living in the flat plain escaped, but the residents living in the mountains were lucky to escape from the disaster. Unfortunately, they were working class, with limited knowledge, unable to continue the civilization of Empire of the Sun, so the humankind civilization ceased and shrank. These ancestors retained some of the memories of the Empire of the Sun civilization, and when they passed on those few memories, and after sinking for five or six thousand years, they bred "Tapenkeng Culture" as the ancestral culture of Austronesian.

In the recent 50 years, Austronesian, which covers one-third of the Earth's surface, has attracted the attention of scholars, and this larger Language family now uses 1,262 kinds of Austronesian Languages, and is the world's largest variety of languages and the most geographically distributed languages. According to statistics, before the Columbus era, the most commonly spoken language in the world was not Indo-European Language, but Austronesian Language.

Over the years, the results of the study explored by scholars from linguistics, archaeology, genetics and culture, show that most people believe the hypothesis that the Austronesian is in line with Taiwan; that is, Austronesians' homeland is Taiwan. However, the biggest question for scholars is where the ancestors and cultures of Taiwan's earliest aborigines came from.

Although some scholars put forward different views and opinions, they were unable to reach any agreement. It took 6,000 years for the ancestors in Taiwan to breed Tapenkeng Culture as the ancestral culture of the Austronesian, the civilization of the Empire of the Sun destroyed by the mega-tsunami in Taiwan 12,000 years ago.

We are well aware from the book that the civilization of the Empire of the Sun has made Taiwan the origin of the Austronesian, and Taiwan's ancestors are the direct descendants of the Empire of the Sun lineage, not from the foreign countries, so that all the doubtful opinions can be explained well enough.

There are thirteen sites of Paleolithic Era in Taiwan, including cultural relics such as Changbin Culture, Mesh Culture, and remains of Dagangshan Man, Tsochen Man and Taiwan Bridge Man, which are between 30,000 and 50,000 years of age. This is a rare record in the ancient civilization of the world.

Since the Austronesian language of Taiwan did not preserve the cognate of ships and navigational technology altogether in Proto-Austronesian language, there was no lack of Austronesian language in other regions of Austronesian. Kwang-Chih Chang, an internationally renowned great master of archaeology and

former vice president of Academia Sinica, and a number of international scholars believed that the Ancestors had migrated to Taiwan by land in the Glacier Age, and there was no need at all for them to embark on ships and get to Taiwan. Therefore, it could be assured that the Taiwanese ancestors had reached Taiwan and settled in the Paleolithic period before the sea level had risen. In November 2016, the National Geographic Societys Genetics Research Program released its findings that human beings were on migration routes and era in East Asia that they had arrived in Taiwan confirmatively about 50,000 years ago.

Taiwans earliest ancestors, living in the southern “Archicontinent of Sunda”, moved north along the Asian mainland Shelf 50,000 years ago, passed through Penghu Shelf and settled in Taiwan on foot. The earliest civilized Empire of the Sun then was established in Taiwan, so that the ancestors of Taiwans earliest aborigines were the People of Empire of the Sun in the Mu-Land. When the Empire of the Sun flourished, it ruled Europe, Asia, Africa, America and other continents, and its language was of course the mostly spoken by people over the world. The Mega-tsunami happened in Taiwan 12,000 years ago, causing the Empire of the Sun to collapse. The colony was thus able to restore its original language. Nevertheless, in Taiwan, where the Empire of the Sun was located, the original language — “Austronesian language”, would of course continue to be spoken. The language of Empire of the Sun has passed down to the present, so that it should be the language of Austronesian. The civilization of Empire of the Sun made Taiwan the origin of Austronesian, not from foreign countries. Six thousand years ago, the Taipei Seven-Star Mountain volcano erupted, resulting in major earthquakes, and a tsunami. The part of Taiwans ancestors evacuated from Taiwan to islands in the Pacific and Indian Oceans in search of a safe place to live in, and then formed the domain of Austronesian. Therefore, Austronesians are also the descendants of the Empire of the Sun, whose homeland is, of course, Taiwan.

There are many traces of ancient civilization in Taiwan, such as the ancient relics of Empire of the Sun, shell currency of China from Taiwan, some sites of ancient industrial district in Taiwan, Peng-Lai Fairyland of Taiwan, ancient gold country of Taiwan, homeland of Pacific Paper Mulberry and Bark-Cloth Culture, Operation Center among federal states in the world, etc.. Taiwans civilization extended far beyond other countries in the region of Pacific Rim. In particular, the study of the spread of Taiwans Paper Mulberry and Bark-Cloth Culture as well as the spread of Taiwan Jade in recent years has actually proved that the homeland of Austronesian is Taiwan.

According to the description of the various sections in this book, we are aware that the lost ancient civilized continent is in fact the Taiwan Island. The views of Taiwans experts and scholars on the ancient civilization of the lost continent can be regarded only as legends or myths, and have never been discussed academically. Although the author has held three press conferences since 1998, appealing to the Government and the academic community to study Taiwans ancient civilization, in order to make the ancient prehistory of Taiwan, the general scholars have no interest, and even the Government has not paid any attention to it. Thus far there is no progress. What a pity it is!

Yung-ho Tsao, an academician of Academia Sinica, has put forward the concept of “The History of Taiwan Island”. So far, the history of Taiwan remains in the modern history of only about 400 years, after the Spanish came to Taiwan. However, according to the information unearthed, the remains and cultural relics of

the ancestor of the people by the archaeologists imply that Taiwan has culture about forty or fifty thousand years. The gap between the two is so immense that it is hard to compare with. No one has ever talked a little about ancient normal prehistory of Taiwan.

The history of Taiwan has been recorded only since the Spanish came to Taiwan, before this rare research has been done for reference, so we collect many precious historical materials and cultural relics, spend a huge amount of money, time, physical strength and spirit, up the mountain and down the sea, and do the field survey. This book is based on these limited historical materials, the works of experts and scholars, oral history, together with the results of field investigations and scientific identification, on the current data compiled. The author makes a collection of pictures and literary descriptions about the ancient history of Taiwan, introducing it to the public in simple words and with photographs.

Because ancient civilization is far from modern, it is difficult to use scientific evidence to obtain a complete human prehistoric history; the author can only quote oral history, legends, or ancient works and other materials, to obtain fragments of information, against the current reality, and then use modern science and technology to verify a subject. So the book's original source of information in the ancient civilization section, referring to many books and reports, with the quotation mark [ ] attached to the sentence. However, the results can be detected in technology, and the book directly cites its academic papers, attached to sentences in parentheses ( ). The source of the two references information is listed after the main article of the book as "Bibliography" and "Reference" respectively.

Although the evidences mentioned by the author are true, which are only the "tip of the iceberg", it is hoped that we can use this to "throw bricks and lead jade", to arouse the resonance of experts and scholars, and to explore this "iceberg entity", and furthermore affecting the history of civilization around the world. It is hoped that the historians can do a series of more research and reporting, and complete an entire "Taiwan Island History" at an early date. They can understand Taiwans contribution of civilization to the world, solve the mystery of the worlds prehistoric unknown high civilization, and push Taiwan on the historical stage of the world to the first and most important action.

People from all lifestyles are welcome to participate in the joint efforts to promote the study of Taiwans ancient civilization, and the author will exert all he can do to help promote the study of "the history of Taiwan Island".

Newidea Research Center  
*Id sien - jung ido*

# Content

Chapter 1. The unknown civilization disappeared in ancient times

Sect. 1. The lost ancient unknown civilization

The unknown civilization of humankind in prehistoric times

Mexico buried city of human civilization at least more than 50,000 years

Civilization relics of Capital Hill in Asia Minor should be existed more than 50,000 years ago

An iron lance at Kushiro City of Japan was ancient unknown civilization

Sect. 2. Reasons for the loss of ancient civilization

According to mythology and legend rumor ancestor came after the cataclysm

Exploring the Earths environment in the Ice Age from science

Science explains the loss of ancient civilizations from the great floods

The first civilized continent of legend disappeared in ancient times

Chapter 2. The lost earliest civilized continent in the world — the Land of Mu

Sect. 1. The Source of the story of the Land of Mu

Churchward wrote "*The lost continent of Mu*"

Churchward deciphered the existence of the Land of Mu

Churchward located the Land of Mu from the relics of megalithic civilization

The Land of Mu was a boundless continent

Sect. 2. The Empire of the Sun was in the Land of Mu

Churchward's description of the continent of Mu

The society of Empire of the Sun

The Empire of the Sun emigrated abroad to establish three colonies

Mayax Colonial Empire was established in the Americas before 35,000 years

The evolution of Mu civilization "⊕" symbol of Empire of the Sun

The people of Mu often traded with the whole world

Sect. 3. The disappearance of the Land of Mu

The destruction of the Land of Mu

Mega-tsunami and earthquakes destroyed the colonies of the Empire of the Sun

The scene of the Land of Mu after submergence

Sect. 4. The other relevant records of the Land of Mu existed

Churchward confirmed the four sources of Mu-Land existence

Troano Manuscript described Land of Mu sank 12000 years ago

Temple inscription in ancient city of Mexico blessed Envoy of the Land of Mu

Recording the east continent on "*Book of the Dead*" is the Land of Mu

Egyptian "*Book of the Dead*" recorded the Land of Mu disappearing

"*Book of the Dead*" has related pictures about Egypt and the Land of Mu

A North American Indian Tableau depicting the destruction of Mu-Land

American rock statue is a monument of disappeared Mu-Land

Yucatan Peninsula in Mexico have inscriptions to be in remembrance of a west continent

Many remnants describe the existence of Mu-Land

Many other relics state the existence of Mu-Land

### Chapter 3. The other lost earliest civilized continent in the world — Atlantis

#### Sect. 1. The source of the story of Atlantis

“*Dialogues*” of Plato recorded Atlantis

“*Critias*” provides detailed information of Atlantis Island and the people

The Acropolis was the capital of Atlantean Empire

Description of the Atlantean Island

#### Sect. 2. The Empire of Atlantis

“*Timaeus*” described a brief introduction to the story of the Atlantean Empire

Description of the Atlantean Empire

Degeneration and disappearance of Atlantis Empire

#### Sect. 3. The Search for Atlantis

Greek poet Solon proposed 16 clues to search for Atlantis

Experts around the world searching no Atlantis

There is no sunken Atlantis in the submarine area of the Atlantic

### Chapter 4. Mega-tsunami destroyed the earliest civilized continent

#### Sect. 1. The lost two ancient civilized continents should be the same one

There are 15 common grounds between Mu-Land and Atlantis

The ruler of two lost ancient civilized continent should be the same Empire of the Sun

Science can examine the human history of lost civilization

Archaeologist asserted the Land of Mu and Atlantis were the same one

#### Sect. 2. The destruction of the first civilized continent may have come from tsunami

The portents of the destruction of the first civilized continent inferred from the tsunami

From the geoscience compared to the tsunamis beyond 10,000 years ago

Tsunami has a destructive power to cause the regional disaster

Mega-tsunami has a powerful destructive power to cause a century disaster of humankind

The cause for the loss of the ancient civilization continent is attributed to mega-tsunami

#### Sect. 3. Volcanic eruption of Stratovolcano Island causes the mega-tsunami

There are two different sources of mega-tsunami

Volcanic eruption of Stratovolcano Island triggers off a Mega-tsunami

### Chapter 5. A mega-tsunami occurred in the northeast waters of Taiwan 12,000 years ago

#### Sect. 1. There are traces of mega-tsunami in Taiwan

The study of ancient civilizations published the academic paper on the mega-tsunami in Taiwan  
Volcanos once have erupted several times in Taiwans northeast corner and waters  
Turtle Island and surrounding waters are active volcanos zone

Famous scholars pointed out that the northeast waters of Taiwan is the origin zone of tsunami

There are traces of landslides on the eastern slope of the northern Snow Mountains

A section map near the Pei-Yi Highway shows a big landslide

**Sect. 2. The Northern section of Snow Mountains belongs to be the Stratovolcano Island**

Tunnel construction of Snow Mountains in No.5 Freeway is difficult

Northern Snow Mountains conceals natural underground reservoirs

Isotope dating data of groundwater in the Tunnel of Snow Mountains in Pei-I Freeway

Pinglin Tea trees withered to confirm Snow Mountains had natural underground reservoirs

The northern section of Snow Mountains belongs to the nature of Stratovolcano Island

**Sect. 3. Evidences of a mega-tsunami caused by volcanic eruptions in the Snow Mountains**

The international ocean drilling ship found highest sedimentation rate in Ilan sill

The core of the drill is similar to the composition of the mountains in Taiwan

At ODP Site 1202 found sediment about 12,000 years ago

The volcanic eruption of northern section of Snow Mountains caused great landslides

A great landslide of northern Snow Mountains caused the mega-tsunami

**Sect. 4. Evidences of the landslide of Snow Mountains in geography and geology**

Lanyang River is a new one from the geography

Suaobay has been the Lanyang River Mouth once

Change course of Lanyang River after the great landslide in the northern Snow Mountains

The great landslide of Snow Mountains dropped into Pacific and formed Ilan Shelf and Ilan Sill

The topography in the waters of northeast Taiwan implies that a great landslide have occurred

From the geology describes the great landslide of Snow Mountains

**Sect. 5. Other things explain that Taiwan once happened a Mega-tsunami**

Examination of Mega-Tsunami from aborigines history in the islands of Southern Asia

Prehistoric inhabitants of Oceania appeared for the year represented

The great landslide of Snow Mountains caused Mega-tsunami to destroy the first civilization

Taiwan Mega-Tsunami Event conforms to the disappearance of the worlds earliest civilization

**Chapter 6. The Land of Mu accords with conditions and environment of Taiwan around**

**Sect. 1. The location of Taiwan corresponded with the Land of Mu**

The Land of Mu is not in the middle of the Pacific Ocean

The Land of Mu should be near Taiwan and Ryukyu

**Sect. 2. The Naacal Tablets reveal the Land of Mu should be Taiwan**

Churchward deciphered the Naacal Tablets

Three pieces of foliage show the Land of Mu may be ancient Taiwan, Ryukyu and Penghu

Leaping deer is on behalf of the first man that should be born in ancient Taiwan

Sect. 3. Many fossils of ancient elephant in Taiwan correspond with Mu-Land

The Land of Mu once was the paradise of ancient elephants

Many fossils of ancient elephant prove that Taiwan should be the Land of Mu

Unearthed fossils of ancient elephant in Taiwan

Sect. 4. Taiwans aborigines claim to be descendants of the Sun clan

The matrilineal society of Taiwans aborigines is the same as Mu -Land

There are Remains of the Sun Clansman at Santiago Bay nearby

Conference Hall Remains of Sun clansman at Laolang Front Mountain

Sect. 5. There are many relics of Empire of the Sun in Ryukyu Islands

The Ryukyu King of Ryukyu Dynasty called the son of the Sun

The people of sunrise country should be the people of Mu of the Empire of the Sun

Gusuku relics in Ryukyu should be passed down by the Empire of the Sun

The carved line drawing of stone plate in Okinawa may be the characters of Mu-Land

Chapter 7. There are many characteristics and evidences of Atlantis in Taiwan

Sect. 1. The interpretation of "*Dialogue*": Atlantis is exactly Taiwan

The 16 clues of Solon are in conformity with environment of Taiwan

Sect. 2. There are the characteristics of Atlantis in Taiwan

Geographical condition and growth environment of Taiwan are in conformity with Atlantis

There were once a great number of ancient elephants in Taiwan as the Atlantis

The unearthed wild buffalo fossils of Taiwan in everywhere as the Atlantis

Unearthed Fossils of wild buffalo in Taiwan

Sect. 3. Taiwan Island should be the Antilia of Atlantean remains

The Origin of Antilia Name

Two islands of ancient nautical chart are recognized to be Taiwan and Japan

The scientist has proved that Antilia is the island of Taiwan

Ancient nautical chart of Antilia is similar to Taiwan

Sect. 4. Evidences suggest that the capital of Atlantis should be near Suao Bay

The capital of Atlantis have cold spring and hot spring but near Suao of Taiwan have too

The tricolor stones of capital building are also produced near Suao

The ancient woodcarving pattern of Taiwan's aborigines is similar to ring canal in the capital of Atlantis

The capital of the Empire of Atlantis should be in sea off Suao Bay

Sect. 5. The 13 Propositions of Atlantean subject are in conformity with environment of Taiwan

Donnelly worked on the subject of Atlantis

The contents of Mu-Land can explain Donnelly's 13 Propositions

An explanation of the 13 Propositions of Atlantean subject with the related environment in Taiwan

The Land of Mu and Atlantis should be the same Empire of the Sun in Taiwan

Taiwan Island may conform to the lost first civilized continent

There are ancient civilized traces of the Empire of the Sun around Taiwan

Chapter 8. There are many submarine remains of ancient civilization around Taiwan

Some submarine artificial structures around Taiwan

Sect. 1. Submarine city beside Hujing Islet of Penghu

The legend of submarine city beside Hujing Islet

The course of diving and prospection in Hujing submarine city

A brief description of the situation of submarine sunken city near Hujing islet

Penghu Hujing Islet submarine sunken city maybe calls the crisscross city

The northern wall of submarine sunken city joins a big round structure of watchtower

There are artificial signs of piling up stone walls of submarine sunken city near Hujing Islet

Computer draws pictures of submarine sunken city wall on the sea floor

The texture of submarine city wall is different from basalt columns and the squirted igneous rock

Writer Hancock confirms the remains of ancient civilization after diving and prospecting

Undersea Sonar Scan Map of Hujing Islet confirms remains of submarine city walls

There are ten pieces of evidence to prove the artificial wall of submarine city

Penghu submarine city should be a relic of the city of the Empire of the Sun

Sect. 2. Other submarine structures around Taiwan

The submarine stone wall was found near Dongji Islet of Penghu

An ancient memorial altar near seashore at Maoao of Gongliao District

The submarine structures in southeast Taiwan

Sect. 3. Submarine structure near Yonakuni Island of Ryukyu in Japan

The submarine structure near Yonaguni Island of Ryukyu is considered ancient temple

Submarine Statue of human head on Yonaguni Island

Huge pyramid and Hieroglyph is found in the waters of Nishizaki

Ishigaki Island of Okinawa found several kinds of ancient civilization relics in sea floor

Ryukyu Archicontinent should be a part of Mu-Land

Remains of submarine civilization around Taiwan should be left over from the Empire of the Sun

Motherland of humankind is in and around Taiwan

Chapter 9. There are more than one hundred ancient artificial caves in Taiwan

Sect. 1. Ice and snow ravaged Taiwan during the Ice Age

Taiwans mountains used to have glaciers during the Ice Age

Taiwans ancient caves were residences of the ancestor in the last glacial period

Historical data of ancient caves in Taiwan

Over one hundred ancient artificial caves at 73 places in Taiwan

Name of Taiwans ancient caves

## Sect. 2. The pilgrimage of Taiwans famous ancient caves

The large entrance of cave by the sea in Keelung Mountain

The cave in Laolan Mountain at Gongliao District of Xinbei City

The big caves in the northern Taiwan

Escape tunnel of Taipei Grand Hotel

Caves at Fanashan in the fourth nuclear power plant at Gongliao

## Sect. 3. Taiwans ancient caves have the traces of fine design

The ancient caves have fifteen excellent designs

A list of the sophisticated design of Taiwans ancient caves

The collapsed cave and air vent holes near Seven-Star Pile at Fulong

Taiwan lacks the archaeological studies of the artificial caves

## Chapter 10. There are many remains of ancient megalithic civilization in Taiwan

There are 11 types of ancient megalithic culture remains in Taiwan

### 1. Stone Tower

Pyramid of Seven-Star Mountain in Taipei City

The stacked up form of Pyramid stones shows the artificial sign

Seven-Star Piles at Fulong of Gongliao District in Xinbei City

### 2. Megalithic Piles

Megalithic Piles look like huge dragon in Seven-Star Mountain

Heaven altar in Seven-Star Mountain

Fanjing Stone in Chaigongkeng Mountain of Taipei City

### 3. Stone Pillar

Saoba stone pillars at Satokoay Site of Hualian

Lune stone pillar at Peinan Site of Taitung

Stone pillar is the cornerstone of the Stilted House of Taiwan's aborigines

### 4. Stone Array

Remains of Wuhe stone array at Ruisui of Hualian

Remains of Peinan stone array

### 5. Rock Carving

Moiré Chart in Seven-Star Mountain of Taipei City

Male and female stones in Longlong Mountain of Gongliao

Rock Carving in Laolan Mountain of Gongliao

Remains of Wanshan Rock Carving at Maolin of Kaohsiung City

Rock Carving culture maybe transmits from Taiwan to China

The cultural system of Rock Carving in Taiwan and China is the same

### 6. Stone Wall

Eastern Taiwan Stone Wall group of Kirin Culture

Gravida Stone of Dulan at Donghe of Taitung

Holy Stone at Pasongan of Taitung

## 7. Monolith

A pair of Taiyuan Monoliths in Donghe of Taitung County

The present existence of monoliths in Changbin of Taitung

The present existence of monoliths at Zhongyong Community of Changbin

## 8. Stone Wheel

Stone Wheels at Zhongyong and Pasongan of Changbin in Taitung

## 9. Patu-shaped stone

## 10. Sarcophagus

Sarcophagus of Xinshe in Fengbin of Hualien County

Sarcophagus of Baishoulian in Chengong of Taitung County

Sarcophagus of Dulan Site in Donghe of Taitung County

Yuemei Concave Rock in Shoufeng of Hualien County

Slate coffin of Jiushanlan Site in Taimauri of Taitung County

## 11. Stone Statue

Stone Statue of Eagle on hillside of Bisha fishing port in Keelung

Stone statue of eagle was damaged by typhoon

Eagle Stone confirmed the ruins of the megalithic civilization of the ancient times

Statue of Parakeet Stone in Taoyuan County

Stone Statues in Seven-Star Mountain of Taipei City

Stone Statue at other place in Taiwan

Yuanshan Site had the worlds biggest grindstone and sheltered house

The remains of ancient civilization prove that Taiwan is the site of the Empire of the Sun

## Chapter 11. The age of ancient civilization in Taiwan can date back to the Empire of the Sun

### Sect. 1. The origin of Taiwans earliest aborigines

The ancestors of Taiwans aborigines had come to Taiwan to settle in the Paleolithic era

Taiwans earliest ancestors came from Sunda Archicontinent in the south

Taiwans indigenous ancestors should have come from Sanasay

The ancestor migration path of Taiwans aborigines is consistent with genetic study

Taiwan's aborigines are not from China

### Sect. 2. Remnants of ancient civilization in the Paleolithic Era in Taiwan

The 13 sites of Paleolithic Era in Taiwan conform to the age of the Empire of the Sun

The stone precipice remains were found at Pingxi that aborigines piled up 60,000 years ago

The age of Changbin Culture of Baxian Cave can reach to 50,000 years ago

Tainan Tsochen Man has a history of 30,000 years

Miaoli Network Culture has a history about 47,000 years

The age of Dagangshan Man may have been as early as 50,000 years ago

Taiwan Land-Bridge Man may date up to 40,000 years ago

### Sect. 3. Taiwan's archaeological relics in space-time framework in line with the Empire of the Sun

Taiwan's prehistoric sites are everywhere

Scholars engaged in archaeological work became the base of Taiwanese prehistory

Space-time framework of prehistoric culture in Taiwan

### Sect. 4. Taiwan's native dogs may be the ancestor of domestic dogs

The ancestor of dogs around the world is East Asian dogs

A probe into the courtesy of native dogs from Taiwan's aborigines

The domestic co-ancestral East Asian dog may be Taiwanese native dogs

## Chapter 12. The remains of the Empire of the Sun in the world

### Sect. 1. The relics of megalithic culture in Pacific left over from the Empire of the Sun

The Empire of the Sun once have left many relics and common cultures all over the world

The relics map of megalithic culture in the islands of Pacific Ocean

Latte Pillars were proved the relics of megalithic culture of the Empire of the Sun

Latte Pillars were built during the ruled time of the Empire of the Sun

Latte Pillars dumping conditions in line with Taiwan Mega-tsunami

Latte Pillars were designed to prevent the serpents from invading the residences

The barn built in Puyuma of Taiwan is the same as Taga House

The ancient remains of the Pacific Rim are the common culture of the Mu-Civilization Circle

### Sect. 2. Other relics of megalithic culture in the world

The megalithic walls are masoned in the similar type around the world

The similar Stone carvings or statues around the world

Terraced pyramids are located all over the world

### Sect. 3. There is a unity of common culture around the world in ancient times

Similar ancient scripts span the half earth

Tattoo totems of Paiwan tribe are a few similar to the scripts of the Empire of the Sun

Tadpole Script of Sun-Moon Lake and Emerald Tablet Script of Mexico have the similarity

The similar unearthed ancient potteries over the Pacific Rim

### Sect. 4. The belief of Great Creator "Serpent" and the Sun God spread all over the world

The Totem of Great Creator "Serpent" spread all over the world

The common ancient civilized belief of the snake god in the Pacific Rim

Most indigenous groups in Taiwan have worshipped the snake totems

### Sect. 5. The worship of the Sun God all over the world

The Sun Gate is a relic of the Sun God worship

The temple of the Sun God of Inca remains at Machu Picchu

Worship of the Sun God everywhere around the world

The calendar of Maya at 5000 year ago is almost identical to the current calendar time

## Chapter 13. The homeland of Austronesian is Taiwan

### Sect. 1. Austronesian is the most geographically distributed race in the world

The appearance of Austronesian

Austronesian is the most widely distributed region and diverse language family

Overview of Austronesians social culture

Rhyme and innovation of Formosan Languages preserve the more features

“Out of Taiwan” is the most popular hypothesis in recent years

### Sect. 2. Polynesian in the earliest age sailing to the world came from Taiwan

Polynesian established the common culture of the Pacific

Most scholars agree that Polynesian is out of Taiwan

The first Native Americans came to settle down by sea

The homeland of Native Americans may be Taiwan

The source of the white species all over the world comes from Polynesia

From the archaeological studies of chicken bones, Polynesian people found America

The megalithic head reveals Native Americans from Polynesia

### Sect. 3. Discussion on the homeland of Austronesian from linguistics

Austronesian language authority first proposed that the Austronesian homeland is Taiwan

Several international linguists claim that Austronesians homeland is Taiwan

Austronesian diffusion accords with “out of Taiwan hypothesis”

Seven steps of Austronesian spread from Taiwan

Austronesian Language Family top 10 subfamilies Taiwan’s aborigines account for nine subfamilies

Language study displays Austronesian originated in Taiwan

Language Phylogenies reveal Austronesian spread from Taiwan 5230 years ago

Austronesian Language should be passed down from the Empire of the Sun

### Sect. 4. Discussion on the homeland of Austronesian from archaeology

Thiel from archaeological data inferred Taiwan is Austronesian origin

Lapita culture is an evidence of Austronesian homeland to be Taiwan

Fijian Lapita pottery showed Taiwanese ancestor migrated to Polynesia

Analyzing ancestors unearthed bones of Fiji Lapita clan confirmed they come from Taiwan

Vanuatu Lapita ancestor’s bones DNA analysis confirmed from Taiwan

First inhabitants of Vanuatu and Tonga were all from Taiwan

The Human Colonization of the Islands of Polynesia

The Batan Islands settlement migrated from Taiwan 4000 years ago

### Sect. 5. Discussion on the homeland of Austronesian from genetics

Genetics study shows Austronesian is from Taiwan

Mitochondria DNA sequence analysis finds Taiwan as the homeland of Austronesian

Evidence of Alcohol metabolism gene research supports Taiwan as the homeland of Austronesian

Direct Genetic Factor evidence shows that most of Oceanians aborigine come from Taiwan

Study Mitochondria DNA of Taiwan's aborigines proves Polynesian from Taiwan

Analysis of Helicobacter Pylori confirmed the migration of Taiwans aborigines to the South Sea Islands

MIT study finds that the common ancestor of all humans are as Taiwanese

Austronesian genetic analysis using specimens of Taiwan's Mountain Peoples was error

A few scholars do not clearly recognize Taiwan's aborigines the results of the study will be biased

## Sect. 6. Discussion on the homeland of Austronesian from culture

Tapenkeng Culture is the ancestral culture of Austronesian

Tapenkeng Culture contains whole Taiwan and the southeastern coast of China

Tapenkeng Culture is the earliest agricultural and pottery culture in Taiwans history

Personal manual weaving facility spread the entire world

The source of Facial Tattoo clansman may be Taiwan native

## Sect. 7. The diffusion of paper mulberry and bark cloth culture confirms Taiwan's homeland theory

Genome analysis of Pacific paper mulberry supports Taiwan to be the homeland of Austronesian

Paper mulberry is dioecism indicating Austronesians emigrated from Taiwan

Bark-cloth Culture confirming Taiwan is homeland of Austronesian

Working on bark-cloth and dress still in the Pacific Rim

Bark-cloths and dresses still are used in the Pacific Rim

Taiwan should be the source of manufacturing tool "stone bark-cloth beater"

Bark-cloth culture of Taiwan influenced the invention of China papermaking

Paper Armors, Clothes and Curtains of Tang and Sung and later dynasties were made of Bark-Cloth

Chinese ancient paper currency was bark-cloth paper made from paper mulberry

The invention of printing in China also may influence from Taiwan Bark-Cloth Culture

The Culture of Austronesian — Printed bark cloth

Austronesian controls the big ship and carries commensal plant species "paper mulberry" emigration

## Sect. 8. Taiwans jade diffusion theory can be used as evidence of Taiwans homeland theory

Bellwood advocated "Taiwan Jade Diffusion Theory"

Taiwan was a big jade trading power in Southeast Asia more than three thousand years ago

The spread theory of Taiwan jade is verified

## Chapter 14. The history of civilization can prove Taiwan to be the homeland of Austronesian

### Sect. 1. Taiwan have ancient characters that are left over from ancient times

Bunun's symbolic notes are more superior to knotted notes

Ancient Paiwan once used the Hieroglyph to record events

Scripts of Insect-Snake Style of Taiwan's aborigines has predated Chinese Three Dynasty

The existences of ancient scripts in Taiwan were proved

### Sect. 2. In ancient times the shell currency of China imported from Taiwan

The shell currencies used in ancient China were only produced in Taiwan

Chinas San -Hsin-Tui Shell Currencies and Taiwans cowries compare to the similarity

The site of shell currency mill in Santiago Bay

**Sect. 3. There was cultural communication between Taiwan and China in ancient times**

The ballad explains the ancient cultural communications between Taiwan and China

There was cultural communication between Taiwan and China in the Xia-Yu age

Ancient gorgeous clothes set with shiny shells of Ketagalan tribe in Taiwan

Ancient ornament set with shiny shells of Ketagalan tribe in Taiwan

**Sect. 4. There are the sites of ancient ancestor's industrial district in Taiwan**

The ancient industrial region of Ketagalan tribe in northern Taiwan

There are the sites of the worlds earliest industrial district in Santiago bay

Coal mining of Ketagalan tribe

There are gold and silver mines in the area of Santiago Bay

The fourth nuclear power plant area can anywhere get the residues of silver and copper

There was smelting metal plant of Yanliao Site at Fanashan

Glittering in the cave wall of the fourth nuclear power plant area at Fanashan of Gongliao District

Copper smelting mill of Ketagalan tribe in northern Taiwan

The Ironworks Site of Santiago Bay

The site of pottery plant in the area of the fourth nuclear power plant at Fanashan of Gongliao

Jomon potteries were unearthed at the area of the fourth nuclear power plant about 4,500 years ago

The mill site of ancient gorgeous clothes with shiny shells at Gongliao

The manufacture process of ancient clothes with shiny shells

Cowry mill at Yanliao site was dated 3510 years old

Wang's Book proved the ancient industrial region in the northern Taiwan 650 years ago

The sites of ancient industrial district in Santiago Bay has been damaged

Hualian Pinglin has the relics of Taiwans ancient jade industrial district

Industrial molds in prehistoric times unearthed at Jiushanlan Site of Taitung.

**Sect. 5. Taiwan is the Fairyland of Peng-Lai**

Taiwan is the most abundant place of the global biodiversity

The ancient books describe Taiwan as Peng-Lai Fairyland

Zi-Xiu Lin described Taiwan's aborigines were the celestial beings

Shang dynasty copper replaced shell currency Taiwan declined gradually

**Sect. 6. Taiwan is an ancient gold country**

The world-famous Golden River of Taiwan

Discovery of the Golden River in eastern Taiwan

Gold Rush Resort of Takkiri Delta deposits gold ore abundantly

15th century Europeans were full of interest in panning gold ore out to Taiwan

Jiushanlan Site of Taitung had gold processing industry in prehistoric age

Gold ore contains abundantly in the area of Chiuhun and Chunkuashin

Metallurgical industry in northern Taiwan

The gold of Taiwan influences the formulation of the international system of weights and measures

The gold of Taiwan is a source of the public system of weights and measures

Sect. 7. Taiwan was once the Operation Center among federal states in the world

Ketagalan tribe says that Taiwan has been once the center of Confederal Operation

Aborigine's speech of "Galan" is "Keilang" and the meaning of "federal"

Taiwan's aborigines signed Wa Lung Treaty Documents with the Netherlands

British Menzies published a book mistaking Zheng-He to surround the world

Taiwan's ancient trade network unsolved the fallacy of Zheng-He surrounding the world

Chapter 15. The ancestors and cultures of the Austronesian came from the Empire of the Sun

Sect. 1. The civilization of Empire of the Sun achieved Austronesian

The origin of Austronesian ancestors and culture is not clear

Two main theories of Austronesian origin do not fit in with actual condition of Taiwan

1. The origin of China's Southeast Coast version

2. The origin of islands of Southeast Asia version

The origin of Austronesian should be associated with the Empire of the Sun

It took 6000 years from the civilization of the Empire of the Sun to breed Tapenkeng Culture

The civilization of the Empire of the Sun achieved Taiwan becoming homeland of Austronesian

The ancestors of Taiwan's aborigines established the world's first Empire of the Sun

Sect. 2. Natural disasters devastated aborigines and then they left from Taiwan 6000 years ago

The volcano of Seven-Star Mountain in northern Taiwan massively erupted about 6000 years ago

A volcanic eruption on Turtle Island 7,000 years ago

Jiupeng of Pingtung has three tsunami boulders more than 5,000 years ago

There are 14 tsunami boulders on the north Shore of Lanyu Island

A tsunami destroyed China's Hemudu Culture about 6000 years ago

Frequent natural disasters prompted ancestors leaving from Taiwan

Keilang is the vessel of migrating on the South Sea Islands and culture spread

Zheng-He's fleet in Maritime Expeditions could be "Keilang"

Sect. 3. Fluctuations in the composition of the indigenous population of modern Taiwan

The Plains Peoples are the main aborigines in Taiwan

Questionnaire of the Government of Japan on Taiwan's Population from 1900 to 1943

Most Chinese migrate into Taiwan from 1946 to 1952

Statistical table of people from China to Taiwan after the Civil War of China

Number of persons of original domiciles of another province population in Taiwan in 1956

Taiwan population questionnaire of Taiwan Provincial Government from 1946 to 1956

The matrilineal Society of Taiwan's aborigines has gradually been misled into patrilineal society

Plains Peoples was appointed by ROC Government's decree to be Chinese

Taiwan's Government misled Taiwanese to become Chinese

The Theory of Taiwan homeland of Austronesian has been affirmed gradually

Hurry up to investigate the treasures of the Empire of the Sun in Taiwan
